**This is DEMOCRACY in action. Here in Washington State, we can improve our lives and the lives our students for decades to come.**

- ✓ Bring your friends and family - share stories and tell our legislators what our children and schools need.
- ✓ The courts have ruled, the voters have spoken, and the public supports the need for the legislature to find the resources.
- ✓ Our children and schools cannot wait for the legislature to continue with their false promises!
- ✓ The time is now to fully fund public education!
